Foreigners constitute only 0.7 % of the total population. Despite the country's large population of Russian-speakers, Finnish is the official language. Finnish-speaking immigrants began to arrive in Finland in the early 16th century. The first written evidence of the Finnish language refers to Finnish immigration to the Grand Duchy of Moscow in the early 1560s. In 1581, the first Swedish-Finns arrived in Finland, followed by a flood of native-speakers, especially Germans in the 17th century. The persecutions and migrations of Finno-Ugric peoples after the middle of the 17th century left numerous traces in Finland's history and daily life, as well as in the use of the Finnish language. At the beginning of the 17th century, approximately 60,000 Finns arrived in Finland, where they came to work as serfs in the vast expanses of the Russian Empire's fur trade. In the early years, these serfs made up a majority of Finland's population. In the 19th century, Finland became an autonomous grand duchy with a constitutional right to self-government and language equality. Finland separated from 6a5afdb4c

It is an efficient application that will help you learn Russian very fast. See also: In this video, you will learn the many advantages of learning Russian. A good knowledge of Russian will give you more options for traveling around and broaden your experiences while travelling to Russia. I found some advantages of learning Russian below, so in this video, I will discuss the benefits of Russian. In the past, when Russia was part of the USSR, at that time the Russian was just a working class while the others are the high class. But now that the Russian is independent again, he still has the same advantages as the ones described in this video, but now he can be part of the high class too. They are mostly interested in all the things that we have. The biggest interest that they have is in the many commodities like cars, gadgets, and food. But the Russians want to improve their knowledge in other fields as well. They have a lot of very talented people who are very smart and are finding new fields that they are expanding in. One very important field is the computer science. I believe that Russian will have very talented people at the top in the near future because they teach Russian in the schools. As you see in the picture above, they are teaching their children not only how to read, but also how to speak Russian. Although some people believe that it may be a little bit difficult to learn a language if you are learning Russian while others are not, I think that you will love it. You can choose this language if you really want, because you will have more access to Russian like information and all sorts of resources in that language. Compared to other languages, it has only got 50 million speakers. However, there are still many things that Russia is capable of doing. As you know, Russia has always been part of the largest trade in the world. And this year, one fourth of the trade is done with Russia. Compare to England, Russia is getting closer to 30% of the trade. Russia has always been a very friendly culture in the
