FIFA PS4 Skill Shots The collection of 3D models, textures, shaders and particles of FIFA PS4 Skill Shots are taking more than a year for EA and DICE to create. These models were created by sculpting over a 3D model and applied to a surface. The surfaces are then deformed by using shaders and particles to give the surface its final look. To complete the system, 3D models of new players, new goalkeepers and new kits are being created. FIFA 15 Ultimate Team The FIFA 15 Ultimate Team collection is also seeing a huge overhaul. The full set of FIFA 15 Ultimate Team cards are getting new designs. Additionally, the set, which has more than 400 new player cards, has been completely rebuilt and reorganized so players can find the cards they need easier. There are more than 60 new Ultimate Team “Cards” such as the Focus Preview (which allows a player to win a Focus card by progressing their card), Big Wins, and New Signings. In addition, over 100 from the FIFA 14 Ultimate Team collection are being moved to the Ultimate Team product, allowing players to manage and trade their FIFA 14 cards in an easier and more streamlined way. FIFA Ultimate Team Legends EA is introducing “FIFA Legends,” a brand new card collection for FIFA 16 Ultimate Team. The collectible cards are being made available for FIFA 15 Ultimate Team as well. Like many of EA’s collectable card games, FIFA Legends will consist of physical cards and digital cards. Digital cards will allow users to play a series of FIFA 16 Ultimate Team games in order to earn game-wide benefits, such as being able to play in single player leagues and compete in mini-leagues in FIFA Ultimate Team, as well as be able to receive items in the in-game Market. The cards will also work together with Ultimate Team, allowing players to earn access to exclusive items. “FIFA Legends” will be added to FIFA Ultimate Team during the first half of 2015. FIFA 16 Ultimate Team Update (Season Pass) In October, the first set of FIFA 16 Ultimate Team Updates will be available to Ultimate Team players.
