and the sub-categories could be used to organize the files in specific ways. Any files can be moved to a specific category and also have individual settings attached to it. In the above example, the date is not considered, because it's just the current date. When you copy the backup file to another computer, any other files that you have access to will be in the same folder and having the same extension will make it easier to find these files in the future. If you ever want to restore them from the backup file, simply select the folder that you have stored it in and open the file. If the program stops working, most of the time, it indicates that there is a virus on your computer, so you need to remove that virus.
